

ALABAMA ONCOLOGY®

## **Alabama Oncology Patient Portal**

Alabama Oncology's Electronic Medical Record (EMR) offers a secure Patient Portal called CareSpace. The Patient Portal is an online website, [www.carespaceportal.com](http://www.carespaceportal.com), that provides convenient 24/7 electronic access to a portion of your own personal health information from anywhere you access the web on your computer, tablet, or mobile device.

The CareSpace Patient Portal provides you a place to communicate electronically with your care team at our practice, and have your questions answered seamlessly.

By inviting friends and family to your CareSpace account, your support team can stay informed on your treatment plan and progress.

You can securely send your health information to providers outside of our practice, like your primary care doctor.

Please complete this Patient Section:
